A Stunningly Chic Four Bedroom Villa

AT VILLA KAYAJIWA

Set in the heart of one Bali's trendiest areas and only a short walk to Batu Bolong Beach, this magnificent four-bedroom villa is a holiday home that dreams are made of.

Villa Kayajiwa is built in an L-shape which wraps around a stunning 25-metre pool with a large wooden sun deck and a lush tropical garden. The chic contemporary villa is beautifully designed and finished in a combination of dark wood, volcanic stone and a fusion of Balinese art with splashes of colourful South East Asian influences. The palatial master suite occupies almost the whole width of the villa while two spacious guest bedrooms come with their own semi-open-air ensuite bathrooms. A fourth smaller bedroom shares its bathroom with the massage room. Most of the rooms are on the same level and connected by a walkway.

The versatile design of the villa allows

the wall panels in the villa's living and dining spaces to be fully or partially opened up for a tropical indoor-outdoor living experience overlooking the pool. The kitchen is just across the corridor from the living room and equipped with a full complement of modern facilities and appliances. Here your chef prepares breakfast, lunch and dinner, while guests are welcome to make use of it as they please.

If you feel like entertaining your family and friends, just head upstairs to the large roof terrace with its barbecue pit and stunning rice-field views, here you can relax with refreshing cocktails or cold beers and watch a beautiful sunset.

Whether you are with family or friends, Villa Kayajiwa can cater for all your needs.

Villa Kayajiwa oozes the kind of glamour and chic design that graces the covers of magazines. It is the perfect Canggu luxury villa for a family or group of friends with a love for contemporary design and a desire to experience Bali in style.
