

SILVERKRIS.COM – Selong Selo

Published December 11th, 2019

The screenshot shows the SilverKris website interface. At the top, there is a navigation bar with the SilverKris logo and the tagline 'EXPLORE THE WORLD WITH SINGAPORE AIRLINES'. Below the navigation bar, the article title '3 eco-friendly hotels that uphold the green movement' is prominently displayed. The article is attributed to Petra Loho, Lola Mendez, and Vanessa Tai, and is dated December 11, 2019. The first section of the article, '1. Selong Selo, Lombok', describes the resort's sustainability initiatives, including its recycling facility, worm farm, solar panels, and use of rice husks. To the right of the article, there is a promotional banner for 'Give Our Best To Your Family And Friends' featuring a red gift box and various products.

3 eco-friendly hotels that uphold the green movement

Ease the impact of travel at these environmentally conscious stays

STORY BY PETRA LOHO, LOLA MENDEZ AND VANESSA TAI

Published on December 11, 2019, Updated on December 11, 2019

Selong Selo's pool area offers a spectacular view.

1. Selong Selo, Lombok

Situated on a hilltop in southern Lombok, this villa resort features a stunning bay panorama. Beyond the view and tasteful local craft décor, what sets Selong Selo apart is its comprehensive sustainability programme. Organic and non-organic waste is sorted, cleaned and processed daily in the resort's recycling facility. A worm farm helps recycle food scraps. The compost fertilises the grounds, and the mulch reduces water usage by protecting the lawn against water transpiration. The resort also produces its own electricity with solar panels as well as generates clean gas fuel by utilising rice husks, a by-product of local farming.
